Soil. Part V: Ecological Aspects. 11. Ecology. Part VI: Human and Cultural Geography. 12. Human geography: thematic units. Geography is a multidisciplinary field that looks at both physical and social aspects of the world. The broad scope of the field makes it a daunting area for those who do not have a specific background in it. Geography: Basic Concepts thus introduces readers to the most important aspects of geography and how they affect us. It covers all areas of geography, from physical geography to climate and weather to human and cultural geography. Geography: Basic Concepts is presented in an accessible and straightforward manner, explaining scientific concepts in the most basic way possible. Along with basic geographical principles, the text provides a clear, concise presentation of the consequences of the physical interactions with the environment we inhabit. Each chapter ends with a chapter review...
