

Cornell University Medical Bulletin Volume 12, No. 1

Filesize: 1.33 MB

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Ally Reichel)

CORNELL UNIVERSITY MEDICAL BULLETIN VOLUME 12, NO. 1

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: . I cases. Locke, Thomas, and O Hara⁰⁸ reported that they had on their pneumonia service at the Boston City Hospital, ninety-four cases of lobar pneumonia in children under 15 years of age of which only four died. Forty-two cases were typed, and revealed that of these, eleven were Type I; five were Type II; four were Type III, and twenty-two were Type IV. Of the four fatal cases, two were untyped, one was Type I and one was Type IV. Because of the low mortality, no antipneumococcus treatment was given to those patients who were under 5 years of age. Armstrong⁰⁹ in England reported rather contradictory findings to those of the Boston investigators. He noted that the Type I pneumococcus, though responsible for many cases of lobar pneumonia in adults, does not appear to cause the disease in childhood. In only one case was a Type I pneumococcus isolated from a child. The pneumococci he found most responsible for the disease in young children belonged almost uniformly to Type II. Type III seemed in the upper respiratory tract to have only a limited distribution. For rapid pneumococcus typing, Oliver⁷⁰ described a precipitin test of filtered pneumonic sputum to which bile has been added. By this method the typing may be effected within half an hour after the receipt of the sputum. According to Nobecourt, Paraf and Bonnet,⁷¹ at the Paris Maternite, during 1919, all the infants and adults were systematically examined for pneumococci...
