LAP Lambert Academic Publishing Okt 2012, 2012. Taschenbuch. Book Condition: Neu. 220x150x4 mm. This item is printed on demand - Print on Demand Neuware - In the recent years, the microhardness techniques have found employed widespread applications in polymer research especially in the establishing structure-properties correlations. The technique has been increasingly used in the characterization of homopolymers, copolymers, polymer blends, and polymer composites. In this work, the materials investigated were microphase separated styrene-butadiene block copolymer systems and their blends with...
